

### A & P Opening Huge Success, Officials Say

Surpassing even the most optimistic prediction, the grand opening of the Great Atlantic & Pacific Tea company's new store at 1332 El Prado, Torrance, last week-end was unanimously acclaimed a "huge success" by company officials, who were quick to add their most sincere thanks to the residents of this community for their generous response to the opening announcement.

"We especially appreciated the many baskets of flowers sent by local friends and the kind thoughts that prompted these beautiful tokens of good will," they added.

"We were too busy taking care of the crowds to make any accurate record of the number who came to the new store during the three big days last week," commented one company official, "but judging from the amount of business done and the number of breakfasts served, it would seem that practically everyone in this trading area visited the store."

"It was a splendid housewarming for your new store, and a welcome that inspires us to redouble our efforts to merit your continued patronage," said J. H. Crouch, store manager.

Another list of outstanding food values is advertised for this week, Crouch added. The grocery, meat and vegetable departments will be open until 8 p. m. Thursday and Saturday evenings, but will be closed all day Friday, Memorial Day. However, the delicatessen and liquor departments operated by Nick Ghiz will remain open all day Friday and every night until 2 a. m.

### Aviation Expert to Address Highway Group

Geoffrey Morgan, public relations head for Douglas Aircraft, will be principal speaker at the dinner meeting of the Southwest District Highways Association Thursday night, May 29, at Los Angeles Airport Cafe, beginning at 6:30 o'clock. Morgan, a noted lecturer and authority on aviation, is expected to discuss the importance of that industry to this district.

### Boulder from Cliff Kills Venice Woman

Struck on the head by a boulder that splintered off the side of a cliff, Mrs. L. C. Harding, 29, of Venice, was killed Sunday at Malaga Cove, Palos Verdes police reported. With her husband, three daughters and friends, Mrs. Harding was enjoying a picnic lunch on the sand beneath the 150-foot cliff when the eight-foot rock fell some 25 feet.

The ancient Etruscans invented dental restoration and false teeth by fitting artificial teeth in bronze bands or "bridges."

To spend the \$17 billion voted for defense last summer will take the product of 8,338,000 man-years of work.

Magnesium is about one-third as heavy as aluminum.

### County Museum Being Reorganized for Popular Use

Purpose of the reorganization of the county museum of history, science and art, located in Exposition Park, is to popularize its exhibition and educational activities, Supervisor John Anson Ford said this week. County officials said there had

been a misunderstanding about the purpose of the reorganization, and that it is intended to increase the facilities for popular enjoyment of the museum's vast collections in history, science and art.

It is not intended to shift the emphasis now given to any of the museum's three divisions, Ford explained.

### Car to Transport Men to Alondra Park Bought

Appropriation of \$7,046 for the purchase of a 12-passenger station wagon to transport single, unattached men from the Central Hospital and the county farm to Alondra Park, where these men are to be quartered under a new plan, was made by the county supervisors this week. The men are taken to

the hospital for regular treatment.

Germany uses whale fat for lard. Japan eats whale meat, but this country uses the meat only for cat and dogs, according to the United States department of interior fish and wildlife service.

In attacks on European cities the majority of bombs dropped have not exceeded 550 pounds in weight.

### Draft Board Sympathetic; Helps Cupid

PHILADELPHIA (U. P.) — When Albert Baudioso sent out invitations for his approaching marriage, he sent one to the head of his local draft board.

That's why Gaudioso will be married this year.

Just after the invitation had been sent, Gaudioso was ordered to report for army induction. Sadly he called all his friends and told them it was all off for the present.

But Chairman Frank Massey of the draft board, who noticed for the first time after receiving his invitation how the army was interfering with Cupid, decided the army could wait.

As a wedding present, Massey not only postponed the date so that the marriage could take place, but gave Gaudioso an extra week for a honeymoon before reporting for service.

There are 50,000 separate inspections on an aircraft engine. — Col. John H. Jouett, president, Aeronautical Chamber of Commerce.
